

Can you use these exciting Time Capsule resources to record your very own account of this unusual time in history?

Here is some information to help you

What is a Time Capsule?

A **time capsule** is a historic collection of goods or information, usually intended as a method of communication with future people, and to help future archaeologists, anthropologists, or historians find out about past people and events in history

How do I store/bury my Time Capsule?

Ensure the **Time Capsule** and everything you're preserving is completely dry.

Do not include staples, paper clips, or rubber bands. ...

Separate items as much as possible. ...

After placing your objects inside, tighten the **Time Capsule's** lid/cover as tight as you can

You can also just keep your Time Capsule inside home and save it to share with future generations of you own family and friends.

What is the best container for a time capsule?

A **stainless steel** container is the perfect choice. If you bury your time capsule, you must make sure the container will not only itself survive, but protect the contents, too.

Good Luck!
